

# Music Identification through Audio Fingerprinting

Yashraj Kakkad - AU1841036

Prayag Savsani - AU1841035

Harshil Mehta - AU18410

Yashil Depani - AU1841005

October 16, 2019

# Objective

- Extract small chunks of each song and fingerprint them.
- Store the chunks in an appropriate database schema.
- Fingerprint a 5 second audio given by user and identify the song being played.
